The 2026 Budget reforms Federal wildland fire management to create operational efficiencies by unifying the Federal wildland fire responsibilities into a single new U.S. Wildland Fire Service (USWFS) in the Department of the Interior. Contingent upon the enactment of authorizing legislation, the USWFS will consolidate all wildland fire management activities previously dispersed across the Department of the Interior and the Department of Agriculture into the Department of the Interior. The new USWFS will be distinct in command and appropriations from existing wildland firefighting agencies. This integrated, cost-efficient, and operationally more effective organization will streamline Federal wildfire suppression response, risk mitigation efforts, and coordination with non-federal partners to combat the wildfire crisis.

Firefighter Pay Reforms.—The 2026 Budget fully supports the costs of permanent pay reforms for Federal and Tribal wildland firefighters across the United States, which is helping to address critical Federal firefighter recruitment and retention challenges.

Preparedness.—Funds the non-emergency and predictable aspects of wildland fire management activities, including the initial attack suppression action on wildfires. Preparedness includes readiness, operational planning,

oversight, procurement, training, supervision, and deployment of wildland fire suppression personnel and equipment prior to the occurrence of wildfire. It also includes activities related to program monitoring and evaluation, and the integration of fire into land-use planning.

Suppression Operations.—Funds the total spectrum of management actions taken to suppress wildfires in a safe, cost-effective manner. This activity includes emergency actions taken during and immediately following a wildfire to stabilize the soil and structures to prevent erosion, floods, landslides, and further resource damage. The 2026 Budget request fully funds Federal suppression operations at the ten-year average of obligations as reported in the 2015 President's Budget, in accordance with the Consolidated Appropriations Act, 2018 (P.L. 115–141). That Act also amended the Balanced Budget and Emergency Deficit Control Act to provide additional new budget authority for fiscal years 2020 through 2027. This additional budget authority is provided in the Wildfire Suppression Operations Reserve Fund account and made available subject to the requirements in P.L. 115–141.

Fuels Management.—Funds hazardous fuels management aimed at mitigating risk to communities and their values, including areas in the wildland urban interface. Interior contributes to community adaptation to wildland fire and improves the ability to safely and appropriately respond to wildfire. Funding for this activity covers the planning, operational aspects, and monitoring of fuels management projects. Interior uses such methods as prescribed fire, establishing potential control locations, and mechanical thinning.

Other Operations.—Funds all other aspects of wildland fire management, which includes Burned Area Rehabilitation, Facilities Construction and Maintenance, Intelligence and Technology, and Grants and Partnerships. Burned Area Rehabilitation begins the recovery process for lands and resources damaged by wildland fires that would not return to fire-adapted conditions on their own. The Facilities Construction and Maintenance subactivity funds construction and maintenance of facilities to house fire-fighters and other personnel, and equipment used in wildland firefighting and fuels management activities. the Joint Fire Science Program, which sponsors and delivers applied research to assist field managers with fuels treatment, post-fire rehabilitation, smoke management, and many other related topics. Grants and Partnerships includes targeted funding for rural fire assistance, which helps local cooperators protect remote communities and natural resources.

The 2026 Budget reforms Federal wildland fire management to create operational efficiencies by consolidating and unifying the Federal wildland fire responsibilities into a single new U.S. Wildland Fire Service in the Department of the Interior, contingent upon the enactment of authorizing legislation. The 2026 Budget transfers the Department of Agriculture's current wildland fire management responsibilities to the Department of the Interior, which includes consolidation of the departments' individual Wildfire Suppression Operations Reserve Funds.

In addition to the amounts provided for wildfire suppression operations through the main wildland fire appropriation, the Consolidated Appropriations Act, 2018 (P.L. 115–141) amended the Balanced Budget and Emergency Deficit Control Act to provide additional budget authority for fiscal years 2020 through 2027. This budget authority is available for transfer to the main wildland fire account when appropriations for wildfire suppression in that account are close to depletion. The additional budget authority helps ensure adequate resources are available to fight wildfires, protect communities, and safeguard human life during the most severe fire seasons.
